

BryTech Inc.
The Right Solution. Right Now.®

BryTech Inc.

Red Hat Ansible Automation Platform

About BryTech

- ▶ BryTech is a Department of Veterans Affairs certified, 100% owned and operated, “Service-Disabled Veteran” Owned Small Business which provides potential clients and customers the ability to use the SDVOSB sole source vehicle, which allows for direct-buy contracts with SDVOSB contractors.
- ▶ The Historically Underutilized Business Zones (HUBZone) program helps small businesses in urban or rural communities gain access to federal procurement opportunities. As a HUBZone certified company we are proud to be part of the continued economic development of urban Atlanta.
- ▶ ISO Certifications
 - ▶ **ISO 9001:2015** certification demonstrates BryTech’s ability to consistently provide products and services that meet customer needs.
 - ▶ **ISO 20243-1:2018 Open Trusted Technology Provider (O-TTPS)** certification ensures that our supply chain is free of tainted and counterfeit products.
 - ▶ **ISO 27001:2013** specifies the requirements for establishing, implementing, maintaining and continually improving an information security management system to protect customer information.

Why to choose BryTech

- ▶ BryTech is committed to exceptional quality of service and client satisfaction achieved through years of professional experience, planning, deploying, and supporting enterprise customers backed by world-class products and solutions to become your trusted advisor.
- ▶ BryTech is fully committed to designing, implementing, and supporting your critical technology initiatives. Our proven record of success extends through the public sector in banking, manufacturing, and healthcare as well as federal agencies within the Defense, Department of Energy, Veterans Administration, NASA and Intelligence Communities.

Red Hat Ansible Automation Platform

- ▶ Ansible Automation Platform provides an enterprise framework for building and operating IT automation at scale. Users can centralize and control their infrastructure with a visual dashboard, role-based access control, and automation tools including analytics and certified, reusable content.
- ▶ Ansible Automation Platform's human-readable YAML automation language makes it possible for users across an organization to share, vet, and manage automation content. Collaborate across teams and get up and running quickly with searchable collections of pre-composed roles and modules so anyone can create automation.
- ▶ **Accelerate**
 - ▶ Get started faster by combining the power of Ansible's massive open source community and prebuilt content collections of the most-used Ansible roles and modules. Codify infrastructure and share across teams are already running deployments, whether on-premise or in the cloud.
- ▶ **Orchestrate**
 - ▶ Easily transfer automation into multiple domains and across different use cases. Stakeholders across developer, operator, and line-of-business teams can now engage with Ansible Automation Platform in ways that work best for them and make sense for their individual roles without slowing development time.
- ▶ **Innovate**
 - ▶ Takes automation even further with analytics, policy and governance, and content management. Ansible Automation Platform tools make day-to-day life more efficient, allowing organizations to solve problems once and share the results with everyone.

Red Hat Ansible Automation Platform Benefits

▶ Quick Implementation

- ▶ Access collections of supported, precomposed content—including those provided by certified partners like BryTech—and distribute them throughout your organization.

▶ Provide automation resources and services with control

- ▶ Give developers and business users access to automation resources where they live—across physical, virtual, cloud, and container environments. Provide enterprise and line-of-business users with the automation governance they need to meet compliance and procurement requirements.

▶ Inform decisions with data

- ▶ Allowing operations teams to analyze and aggregate data and generate reports on the status of automation deployments across multiple clusters. An ROI calculator shows teams the time and resources they've saved using automation.

▶ Standardize remediation

- ▶ Provides a more efficient, streamlined base to automate security practices and bring together the different tools used in security activities.

▶ Empower more users

- ▶ Extend the benefits of Ansible Automation Platform to network administrators and teams. Modules give users a common language—even across different vendors. Those network modules can configure your network stack, test and validate your existing network state, and discover and correct network configuration drift.

Select BryTech for Red Hat Ansible Deployments

- ▶ BryTech can position Red Hat Ansible Automation Platform:
 - ▶ Customers who want to adopt IT orchestration to support DevOps
 - ▶ Red Hat Ansible Automation Platform allows developers to set up automation to provision, deploy, and manage compute infrastructure across cloud, virtual, and physical environments.
 - ▶ Automates workload redistribution as the cluster expands with data growth
 - ▶ End to end workflow orchestration
 - ▶ Customer IT security teams are responding to security attacks manually or with minimal automation
 - ▶ Automate and integrate different security solutions
 - ▶ Investigate and respond to threats across the enterprise in a coordinated, unified way using a curated collection of modules, roles and playbooks.
 - ▶ Remediate faster-automating actions like blacklisting attacking IP addresses or domains, whitelisting non-threatening traffic or isolating suspicious workloads for further investigation.

Our expertise

- ▶ BryTech delivers turnkey solutions
 - ▶ Solution design based on customer requirements - **We listen** to our customers' problems without a sales agenda and develop the best, most cost effective solutions.
 - ▶ Full implementation services - **We deliver** the solution as designed with the agreed upon functionality within the established timeframe.
 - ▶ Hands-on training - **We train** our clients on the day-to-day operations of the solution. We make sure they are self-sufficient from Day One.
 - ▶ Complete set of documentation - **We document** the solution as implemented, including hardware configuration and software installation and can be added to a business continuity plan.
 - ▶ Trusted Advisor status - **We stay engaged** with our clients, becoming trusted advisors. We assist customers with problem escalation and the account team by identifying new opportunities.

Financial Flexibility

In the midst of budget constraints, government agencies face daily pressures to update and improve their IT systems.

For more than 20 years, BryTech, Inc. has worked with both civilian and federal agencies to fulfill a wide range of business and mission critical projects. As experts in compliance and regulatory issues, we offer industry-leading knowledge and fast, reliable alternative funding options. An extended payment plan can ease budget constraints and expedite the procurement process, enabling you to acquire the total solution you need and pay for it over time.

► **This allows you to:**

- Acquire and deploy the total solution with one order
- Combine multivendor products and services in the same transaction
- Bundle products, services, and training under a single, customized payment plan
- Select midterm upgrades and add-ons to reduce the risk of obsolescence
- Choose end-of-term options to accommodate growth and changing business needs

► **Additional benefits of extended payments include:**

- Expedited deployment and fixed pricing for multiyear contracts
- Antideficiency Act (ADA) compliance
- Federal Acquisition Regulation (FAR)-compliant documents for faster implementation
- Minimized administrative and procurement costs
- Lower cost of ownership

“ We take our responsibility to our clients seriously. Our goal is to deliver the highest quality hardware, software and services ”

-Don Straley, Executive Director

The BryTech Commitment

BryTech will do whatever it takes to make sure we have highly satisfied clients. We realize we are only as good as our last engagement, so we strive to make sure it is a positive experience.
